# Loadlined Split Hulled Dump Scow, 1450 cy

## 185 Ft Dump Scows : Long Pt ; Arrow Pt

Our pair of 185' Scows are load lined with DNV GL for ocean disposal capability in any region. They have also been constructed with draft in mind for access to smaller ports and areas limited due to shallow water depth. The hydraulic system engines are Tier III rated, and are in compliance with all emissions regulations coast wide.
