

# Dutra Groups Derrick Barge

No. 24

**This job is a great example of the flexibility of Curtin Maritime. While our tug the Sarah C was underway heading north with a barge for another customer, the Dutra Group.**

The Dutra Group contacted Curtin Maritime to perform a mobilization of Derrick Barge No.24 from Alameda, California, back to the Port of Los Angeles, California.

While still underway, Curtin Maritime was

able to come to terms, execute a contract, and issue insurance certifications for the Dutra Group in order to complete the job. Curtin Maritime arrived in Alameda to mobilize Derrick Barge No. 24 after finishing the northbound tow for our other customer and brought Derrick Barge

No.24 back for the southbound journey. Because the job was an existing voyage, Curtin Maritime had the flexibility to provide a very economical lump sum rate to Dutra.
